Project Experience

University of Central Florida – Full Stack MERN Coding Boot Camp   Spring 2021
Crush It!| https://github.com/SantiagoHR2020/you-crush-it | https://shielded-spire-11883.herokuapp.com

- Summary: rush It! is a personal workout tracking application that will allow the user to set up an account, create a workout routine by selecting from a range of exercises, and track your progress compared to previous sessions. The app was deployed on Heroku.
- Role: one of the 2 coders for the front-end and also helped troubleshoot the back-end code
- Tools: HTML, CSS, JavaScript, jQuery, Bootstrap, Font Awesome, node, Express, Express Handlebars, MySQL, ORM, Sequelize, Chart.js

Colorado State University, Fort Collins, CO   Spring 2017
Object Programming

- Utilized Java to plan, design and implement applications.
- Created an application that incorporated database searches and updates, session variables/cookies, and secure pages available only to authorized users.

Business Intelligence

- Utilized Microsoft SQL Server and Visual Studio to plan, design and implement data marts, data integration, OLAP cubes, data mining and reporting.
- Utilized Power BI to generate visualization of data.

Applied Data Mining and Analytics in Business

- Utilized SAS Enterprise Guide and SAS EM to plan, and implement data mining methods/techniques for classification, segmentation, association, prediction, and forecasting Utilized SAS Text Miner to generate visualization of data.
- Utilized SAS Text Miner for pattern discovery and predictive modeling of corpus.

Econometrics

- Utilized Stata to manipulate the data for interval testing, linear regression, nonlinear regression, logistic regression, time series regression, and panel data regression.

Professional Experience

Project Management Consultant - Altos Cisne, Colombia   01/2019 – Present
- Manage and direct staff members and the construction, operations, and maintenance activities at project sites.
- Provided technical advice regarding design, construction, or program modifications and structural repairs to industrial and managerial personnel.
